TORNADO AND CLOUDBURST SWEEP PITTSBURGH SECTION. Five Persons Dead, Dozen Others Missing and Two Score Injured.

[By Associated Press.] PITTSBURGH, July 11.—Five persons were dead today, a dozen others missing and more than two score injured as the result of a severe electrical storm, accompanied by high wind and a cloudburst, which swept this section of the State late yesterday.

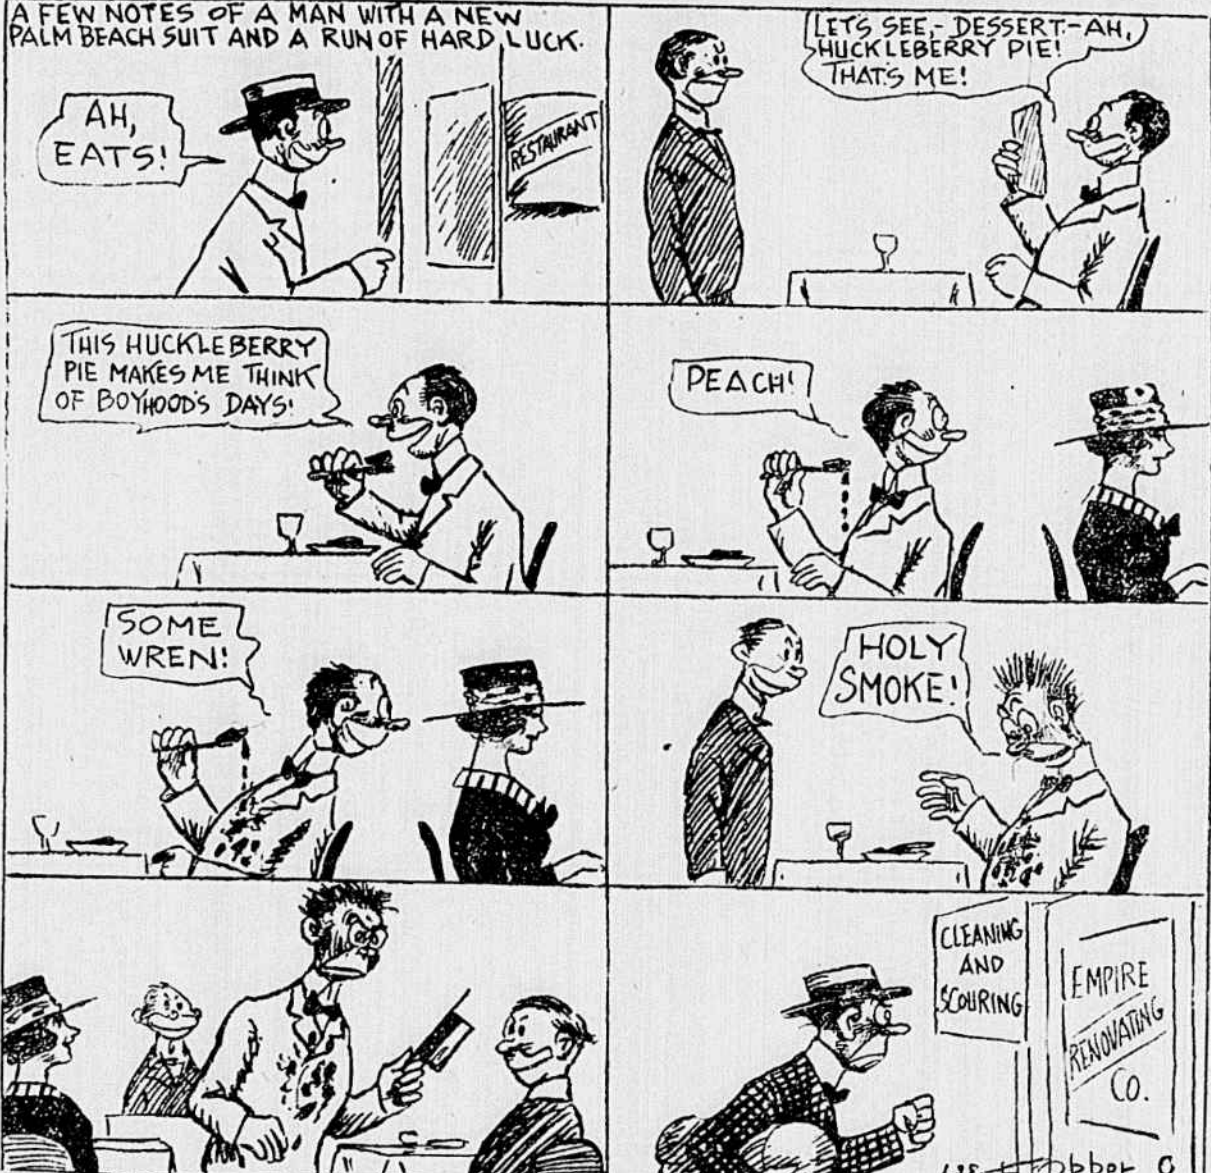

The most serious damage was done at Bradford, where a tornado killed two persons, injured scores others, and demolished seventy-five houses. Lightning killed two campers near Clinton and farm at Greensburg. Property damage will run into many thousands of dollars.

Wire service today was badly crippled by the storm, and communication was difficult with other towns where victims of the storm were reported. Bradford authorities were receiving the ruins of demolished houses for additional bodies. Nine persons had not been accounted for this morning, and were believed to be buried under the wreckage of their homes. A number of injured were in hospitals.

Reports from outlying districts showed the storm's damage to be heavy. Besides demolishing the southern part of Bradford, farm buildings were wrecked. At Chrys Mills, ten miles east of Meadville, practically every window in the town was shattered by hail. At Bradford one house was carried a quarter of a mile by the tornado.

FEDERAL SAFETY CAMPAIGN DECREASES ACCIDENTS. Southern Railroad Shop Works 333,452 Man-Hours Without Report of Injury.

[By Associated Press.] WASHINGTON, July 11.—Results of the railroad administration's safety campaign, declared by Director-General Hines to be "most satisfactory," were made public today in statistics showing that in the first three months of this year 549 fewer persons were killed in railroad accidents than in the same period of 1918. The total number of deaths decreased 500.

As an illustration of the effectiveness of the safety campaign now under way, a report from the southern region shows that one of the railroad shops worked, during the three months period of 1919, a total of 333,452 man-hours with no injuries reported. Another shop in the same region worked 333,452 man-hours during the same period, reporting only four accidents.

EARL OF MARCH TESTIFIES MRS. ELIOT KILLED SELF. Testimony Also Discloses That Difficulties Existed in the Family Circle.

[By Associated Press.] LONDON, July 11.—The Earl of March, chief witness at the coroner's inquest into the death of Mrs. Arthur Eliot, who was found shot dead in a barricaded room in her home Wednesday, testified today that Mrs. Eliot had consulted him regarding the actions of her husband, Captain Arthur Eliot.

The Earl of March, in his testimony, said that Eliot told him his husband was making his home with his step-daughter-daughter of his former wife—and that he refused to return to his home.

Other evidence given at the inquest tended to show Mrs. Eliot killed herself after having had disagreements with her husband over his step-daughter. Testimony showed that Mrs. Eliot lived with Captain Eliot only a short time.

EUROPE SEEMS INTERESTED IN MEXICAN CONTROVERSY

Official Hope United States Will Endeavor to Clear Up Situation in South.

[By Associated Press.] PARIS, July 11.—Dispatches from Washington printed in Paris this morning indicating that the United States government was about to interest itself more actively in the stabilization of conditions in Mexico attracted much interest on all sides in peace quarters here.

Officially little was said for publication, but the sentiment among the representatives of European nations was apparently one of gratification that the prospects seemed better for improvement in the Mexican situation, temporarily thrust in the background by the war and the peace negotiations, but not wholly out of sight of European statesmen.

The discussion at present centers upon the connection of the Mexican problem with the league of nations, but it is largely academic. The feeling is expressed, however, that it might be a happy event to have the Mexican matter at least in the process of adjustment before the league of nations formally comes into operation.
